

PETICION: Hon Sr. MIGUEL A. PACHECO MERCADO

Policía de Puerto Rico, Guanica PR

Petition Summary

➤ **We the residents of Salinas Providencia** (Playa Santa), Guánica are asking for your help in restoring decent living conditions to our community. We are asking for no new laws; only enforcement of existing law.

Action of Petition

We seek:

- The enforcement of the existing laws regarding the level of volume and hours involving loud music and microphones with D-jays at the bar El Ancla Flotante and the AEELA building.
- The ordinance against glass bottles on the streets and beach is also ignored and many of these bottles end up in the sea, around the Malecon and in the streets.
- We have an issue with the unlimited number of people allowed on a small beach that has no bathrooms. This lack of bathrooms has resulted in make-shift bathrooms on the rocks and bushes around the beaches and leads to contaminated water and closure of the beach.
- We are also concerned about the abandonment of large numbers of dogs at the beach who are left to starve and die.
- Finally, can the owners or banks of the abandoned buildings and restaurants be made to board them up and maintain the properties?
